

# GRATITUDE TO MY PATRON SAINTS

## PATRONAGE ONE

*Amongst the inter-galactic energies that are spreading through the different atmospheric layers of Planet Earth are the empyrean energies of the Arcturians.*

*They have gifted us their rejuvenating and powerful energies to assist us during these troubled times.*

*Planet Earth is presently in an accelerated pace of cleansing and she is removing layers of polluted negative energies.*

*These adverse energies have to be neutralized by us; else they will subtly pollute Ether and bring heaviness in your auric layers.*

*The Arcturians are assisting us in this cleansing.*

*We wish to inspire the denizens of Planet Earth, to take a step forward towards the 4<sup>th</sup> and 5<sup>th</sup> dimension of life.*

*Strive towards that life Dear Ones!!*

*When you turn to us for assistance; I will cut your etheric cords of negativity and assist you in taking that step.*

*I am your Guardian Angel **Archangel Michael** Blessing you.*

*I am showering Blessings of prosperity on the Gratitude Series One and will shower My Blessings on all your readers. This will be your first channeling in My Book...*

## **PATRONAGE EIGHTEEN**

*Dear Ones if there is bitterness in your heart; you are lowering your personal vibratory level.*

*Negative qualities ruin the nature of your thoughts; a ripple effect of negativity spreads anger and discontent into your surroundings.*

*The subtle vibrations around you should be harmonious, pleasant and conducive towards peace, joy and happiness.*

*We choose these words because we are aware that every soul has a free will; which assists them in choosing important aspects in their day-to-day lives.*

*We are aware that a vast majority often do not choose the spiritual path because of some confused misgivings about spirituality.*

*The denizens of Planet Earth believe that the spiritual path is a path of rigorous hardships and denial of bodily comfort.*

*We ask you to sit in introspection and try and comprehend your thoughts. Very often a small misinterpretation leads to huge arguments.*

*Yes, these small misunderstandings can create problematic issues that are apparently senseless and often, completely unnecessary.*

*The spiritual path enhances your intuition and powers of comprehension. It allows you to imbue the higher and refined energies, which are prevalent in Ether.*

*These energies vitalize your mind and body in a positive way and assist you on your path.*

*These subtle energies are our pathway towards all aspiring souls. When your subtle energies and vibratory levels are high, you can connect to us and receive our guidance and knowledge.*

*As we spread these refined inter-galactic energies of 2014 and 2015 into Ether; we raise you to a higher awareness of your inner self.*

*Some may be motivated towards meditation and prayer; whilst others choose to complete their past karmic debts through forgiveness and compassion.*

*Some are led towards a deep introspection into distinct aspects of their inner self.*

*Some are guided towards different techniques of cleansing and purification. Forgiveness, acceptance, compassion and gratitude are important qualities to be nurtured.*

*Dear Ones, we wish to motivate you towards liberation.*

*We are here to assist you Dear Ones, and you NOT need fear; we are holding your hand and taking you home; back to yourself.*

*We ask you to contemplate deeply upon any channeled message which you read. Each soul will perceive and comprehend it, with their emotional baggage.*

*We ask you to seek our guidance and knowledge during moments of introspection.*

*Usually most people do NOT EASILY ACCEPT THEIR INNER SELF!!*

*Open your hearts and accept our Divine vibrations....*

*We bless you Dear Ones to seek the pure light of ascension.....*

*We are **Archangel Michael** and **Saint Germain** Blessing you.*
