

THE NAVRATHRI GRATITUDE

FIRST DAY OF NAVARATHRI

Dear Ones, in the uniqueness of this channeling, you will be receiving the collective energies of the Divine Goddesses.

You are now receiving the pristine energies of 2014 that have entered Planet Earth during the Spring Equinox...

Dear Ones, you can only imbibe these energies through meditation. This is the important truth that we wish to convey.

There will be 2 aspects to your spiritual endeavours for this decade. Firstly you must meditate and imbibe the higher energies surrounding you.

When we find that you are connected to the Angelic realms, we will shower our Blessings and fill your subtle bodies with our light.

Do not get distracted by our work, you have to sit in meditation and enhance your vibratory levels.

If you remember our names, you can call us; Goddesses or any of the Gods or Gurus.

Remember Dear Ones, that even if you do not call us, we will shower our Blessings and Grace upon you.

Our subtle aspects surround you, even now as you write our message. Our aspect is a single ray, our light!

Dear Ones, we want you to understand our Omnipresent energies.

Just as the Sun illuminates your world with its flaming rays and confers light. Similarly our rays cover your Planet Earth and we manifest our subtle form around you when we bless you.

WE ARE STANDING NEXT TO YOU...NOW!!

Those who are clairvoyant will be easily able to perceive our presence.

Dear Ones, we will always bless all the denizens of Planet Earth, even if they DO NOT PERCEIVE US!!

Rest assured Dear Ones, that you will always receive our Blessings in the silence of your meditation.

We only ask you to meditate as regularly as you can, without creating stress in your life.

Remember Dear Ones that the purpose of meditation is to enhance your consciousness and vibratory levels. Stress lowers it and hence on certain days, you will find that time does not permit you to meditate.

So we ask you to close your eyes...take a deep breath and chant any mantra or Omkar 9 times.

We receive your meditation with Gratitude and shower our Blessings.

This is our gift to you in the Golden Age...2014.

Chant 9 times and connect with us as often as you wish in the midst of your daily routine and receive our Blessings.

Recognize the importance of meditation as the first aspect of your spiritual sadhana....your spiritual endeavours.

*We are the **Divine Goddesses** Blessing you on the first day of Navrathri.*

EIGHTH DAY OF NAVRATHRI

Dear One, you are seeking knowledge and enlightenment from Me. But why do you restrict your own Blessings? Am I not capable of giving more?

Planet Earth has attributed certain qualities to each of the Divine Trinity of Goddesses.

Through centuries We have been assigned a role to play and We are worshipped in that manner.

So now you are confused? You are wondering if I am trying to break traditions, prayers and customs, which are centuries old?

The Divine Sages have ascribed our duties and the role that we play in the Divine Trinity.

So, yes, Devi Saraswati Mata, Devi Lakshmi Mata and Devi Parvati Mata are worshipped according to the Blessings They bestow.

We play an important role of supporting our Consorts. Lord Brahma as the Creator is complemented by His Divine Consort, Devi Saraswati Mata; Who gives the knowledge for creation of the world.

Lord Vishnu is complemented by His Divine Consort, Devi Lakshmi Mata; Who gives the wealth that is necessary for the sustenance of the world.

Lord Shiva is the supreme destroyer of our ego and grants Moksha. He is complemented by His Divine Consort, Devi Parvati Mata; Who symbolizes strength and courage.

Dear One, this lengthy explanation was to clarify the role that humanity on Planet Earth has expected us to play.

So I want you to meditate upon a few insights, which I am going to present.

The energy aspects of the Divine Trinity of Lord Brahma, Lord Vishnu and Lord Shiva do not need the energies of their Consorts. They are all powerful and complete incarnations of the Supreme Godhead.

In reality, they are one light, emitting different rays.

The Divine Trinity of Goddesses can also play their role independent of their Consorts. But, they are One; as Divine Parents for Planet Earth.

Our energies are primarily those that we are associated with; creation, knowledge, wealth, strength and power.

Dear One, we work only with the energy/subtle bodies, which you MUST understand now. Your perception is ONLY for your physical body.

All the people of Planet Earth have ascribed roles to us for the creation, sustenance and destruction Of their physical bodies.

The Divine Trinity of Goddesses is expected to bestow knowledge, wealth and power for a physical body in THIS INCARNATION.

Have you now understood how you have limited your own Blessings?

We impart blessings through vibrations, which are imbibed by your subtle bodies. Your subtle bodies are eternal, ageless and formless.

We urge you to transcend the narrow confines of your physical body.

Seek us in the subtle realms of meditation, which are limitless...an expanse so vast...it connects you to your cosmos.

You suffer sorrows and sufferings only because of your limited perception. Change it, enhance it and find our true aspect. These scriptures exalt us in 1000's of forms,

WE ARE FORMLESS!!

THE DIVINE TRINITY IS FORMLESS.

SEEK US ONLY AS PURE LIGHT AND RECEIVE OUR BLESSINGS WITH HUMILITY.

The Blessings we will shower on your subtle bodies will be your inner bliss and joy. Experience it in the ecstasy of meditative bliss.

Know that you have FOUND THE TRUE TRINITY!!

The rays of cosmic splendor...transcend the forms given to us...go beyond your karmic debts and attain Moksha.

Seek our true forms in the holy vibrations of our chants.

ASK US FOR THE BLESSINGS OF MOKSHA!

*We are the **Divine Trinity of Goddesses** Blessings you on the auspicious Eighth day of Navrathri.*
